

Integrated wood-finish display 隱藏式木紋屏幕

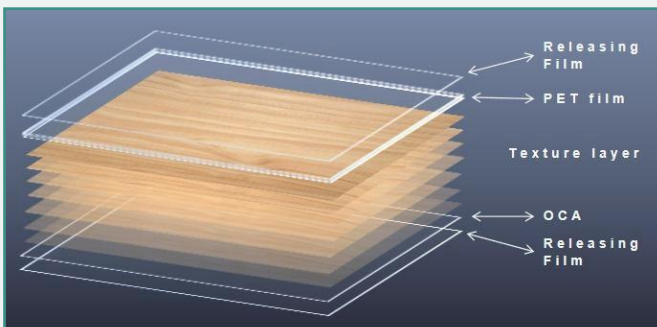

隱藏式一體化木紋屏，息屏呈現自然木質外觀，宛如高檔實木裝飾；亮屏即顯示清晰畫面，實現「息屏為裝飾，喚醒即顯示」的一體化體驗，設計簡約高級，讓空間更純淨有序。

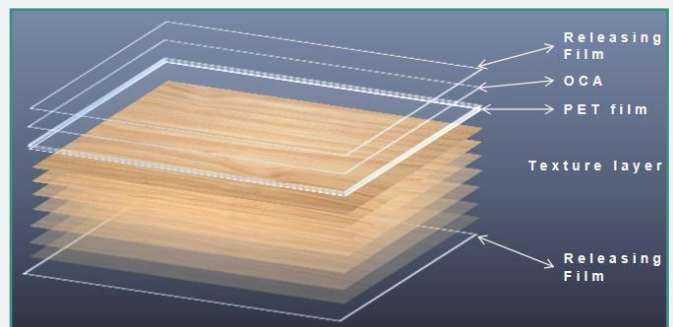

A concealed, integrated wood-grain display that presents a natural wood finish when off, resembling a premium solid wood decoration. When activated, it instantly delivers a clear display, creating a seamless shifting from decor to display.

紋理與透過率可客製化 | Customizable Texture and Transmittance

木質紋理層是通過 5-12 層精密絲印疊加形成，並根據紋理的複雜程度決定絲印層數

The Wood texture layer is formed through 5-12 layers of precision screen printing, with the number of layers determined by the complexity of the texture

可根据项目需求定制透过率

Transmittance can be customized according to project requirements
